

J. Shearer Roofing Ltd

Roofing, Roughcasting, Building Services

CASE STUDY:

United Services Club, Barrhead

PROJECT OVERVIEW

J. Shearer Roofing Ltd successfully completed the full re-roofing of this community building, replacing an ageing and deteriorated roof with a high-performance profiled metal roofing system.

The existing roof had reached the end of its lifespan, showing significant weathering and requiring ongoing maintenance. The client needed a durable, cost-effective solution that would provide long-term weather protection and improve the building's appearance.

WHY J. SHEARER ROOFING?

With extensive experience across commercial, industrial projects throughout Scotland, we provide reliable roofing solutions built on quality workmanship, safety and professional project delivery.

SCOPE OF WORKS

Full scaffold installation and safe access systems

Removal of existing roof coverings

Structural roof inspection and preparation

Installation of new profiled metal roof sheets

New flashings, ridges and weatherproof detailing

Comprehensive quality control and final inspection

THE COMPLETED ROOF DELIVERS:

Long-term weather resistance

Thermal upgrade.

Reduced maintenance costs

Enhanced building appearance

Increased durability and service life

Improved protection for building users
